Door and Wall Protection

InPro, the industry leader in architectural products, gives you more interior protection product, color and material choices than any other company.

Regardless of the décor, project scope or impact level needed, InPro has you covered.

IPC door and wall protection include everything to keep the interior of buildings looking newer ... longer. We offer the most color choices in the industry and we'll match competitors' colors too.

Your deadlines are our deadlines. No one beats InPro in speed of delivery! Need it faster? *Check out our Quick Ship Products starting on p.17.*

More Green Choices!

Most of our standard interior protection products are available in G2 Blend®, manufactured from reformulated BioPolyPETG+™ material, including handrails, wall guards, corner guards, rigid sheet and door protection.

Door and Wall Protection

Wall Protection

InPro can cover your facility floor to ceiling against damage from pedestrians to heavy equipment

Why do I need wall protection?

The level of wall protection for a facility depends on different factors such as the location or the purpose of the facility. A hallway or corridor in a heavy traffic area commands a higher level of protection than a lounge or lobby may need. A hospital may require sterile surfaces whereas an office building does not. No matter where a wall is located, chances are that it may still experience at least some level of abuse.

Palladium™ 3D High Impact Wall Systems ■

- Ideal for high traffic areas, Palladium™ 3D provides a low-maintenance system that coordinates with existing door and wall protection products for an integrated facility solution.

- Palladium™ 3D combines the durable protection of .040 rigid sheet membrane and MDF board to withstand daily abuse from wheelchairs, carts, luggage, beds and more.

- MDF board is 100% pre-consumer recycled wood fiber, containing no added urea-formaldehyde or urea-formaldehyde resin.

- Offers LEED® credit support for IEQ 4.4 low-emitting materials.

- Class A fire rated.

Handrails

INSIDE CORNER
Inside Corner provides a smooth transition for corner applications.

SPLICE
Splice needed for installations that are over 12' long.

MOUNTING BRACKET
Mounting Bracket keeps hands a safe distance from wall.

VINYL COVER
Vinyl Cover is available in a variety of colors to coordinate with other interior finishes.

ALUMINUM RETAINER
Aluminum Retainer provides strong support and structural stability.

RETURN
Return finishes the handrail installation for a professional look.

OUTSIDE CORNER
Outside Corner allows for continuous grip and uninterrupted transition.

Solve pedestrian safety concerns with a variety of ADA and ANSI compliant handrails

Why do I need handrails?

- An InPro handrail is engineered to provide an ideal hand grasp while protecting interior walls from damage.
- Provide comfortable and functional gripping surface with ergonomically designed thumb groove on select handrails.
- Seams are minimized with standard 12' lengths.
- Vinyl and G2 Blend® profiles are GREENGUARD® certified.

GREENGUARD®
Indoor Air Quality Certified

Door and Wall Protection

Silhouette Handrails

BIM READY

B····   A····

A. 3500 Silhouette Handrail | B. 1300 Wall Guard p. 74

Choose from more than **17,442 combinations** of colors, patterns and materials!

- Silhouette handrails are engineered to provide an ultimate hand grasp for all users while protecting interior walls from damage by providing an expanded impact surface.
- Wall guard extends beyond the handrail to deliver superior impact protection.
- Offers a European design with a stainless steel bracket.
- Select from HR9 and 900 models as top of handrail options. A member of the Silhouette handrail family, the HR9 and 900 handrails can also be used as a standalone handrail in addition to the top gripping surface for the 3500 Silhouette handrail series (p.52).
- Meets safety codes with ADA and ANSI compliance.
- Vinyl and non-PVC profiles are GREENGUARD® certified.

Rapidly Renewable

Since bamboo is one of the earth's fastest growing plants, it's an excellent alternative to timber. Bamboo does not have to be replanted and requires no fertilizers or pesticides. It is harvested from stands that are closely controlled and achieve amazing growth leading to harvest in just three to five years.

Door and Wall Protection

Corner Protection

Solve damage to corners from carts, luggage or wheelchair traffic

TOP/BOTTOM CAP
Top/Bottom Caps create a professional, finished look

BLUNOSE RETAINER
Patented design protects corner from traffic abuse and is nearly 4X stronger than aluminum retainers and 6X stronger than other vinyl retainers.

VINYL COVER
Vinyl Cover is available in a variety of colors to coordinate with other interior finishes

Why do I need corner protection?

- With surface mount, flush mount and fire rated corner guards, InPro offers the right corner protectors for your needs.
- Complement interiors with standard colors, combine the warmth of woodgrain with durability or allow the wall color to show through with clear corner guards.
- From fire rated to stainless steel, InPro has you covered.
- Vinyl and non-PVC profiles are GREENGUARD® certified.

GREENGUARD®
Indoor Air Quality Certified

The warmth of **wood**

Combine the warmth of wood with rigid vinyl. Available on most corner guards in a variety of patterns from the Woodland I color palette (p.101)

A **budget-friendly solution** that provides the corner protection you need.

- Protect rounded corners from damage caused by pedestrian traffic with bullnose textured tape-on corner guards.
- Quick installation with factory applied adhesive tape.
- No-tape option for installation on vinyl wallcovering with a heavy-duty adhesive.
